COMMUNITY & ECONOMIC DEVELOPMENT UPDATES

- **Current Development Activity:** The Community and Economic Development and Engineering staff are currently processing more than 20 land use development applications. The type of development is split roughly between subdivision of property for fee-simple unit lot ownership and single family residential lots. The applications are comprised of the following residential units:

- Townhomes in land use review totaling 78 residences
- Single-family lots subdivisions in land use review for 27 homes
- Civil construction plan review for 31 townhomes
- Civil construction plans for 56 single family lots
- Projects with pending submittal for processing totaling 107 residential units

The sum total of residential units is 299 units: 192 approved or pending construction, and 107 expected in the coming months.
